INTRODUCTION

The STATISTICS OF OHIO LIBRARIES is compiled from information supplied by academic, institution, public, and special libraries in Ohio through questionnaires sent by The State Library of Ohio during 1984.

The publication includes data from all types of libraries as well as Rankings of public and academic libraries.

The public library statistics are reported for calendar year 1984. County auditor's offices reported data on the distribution of intangibles tax funds to the Auditor of State. This data was forwarded to the State Library where it was compared with the information received from the public libraries.

Academic, Special and Institution library data are based on information from the annual reports with statistics for the most recently completed fiscal year.

Statistics on school library media centers (for school year 1983-1984) were collected by the Ohio State Department of Education's Ohio Educational Data Systems School Building Survey (OCCD-7L). These statistics were compiled by the Department of Education's Division of Computer Services and Statistical Reports and forwarded to the State Library.

Arrangement of information is generally self-explanatory; footnotes have been used as needed. A dot leader (. . .) or an N/R in a data column indicates a non-response.

Data were handled both at The State Library and at the State Data Center. Academic, institution, public, and special library statistical reports were edited at The State Library and sent to the State Data Center for data entry. Printouts were sent to librarians for verification prior to printing.

Note of omissions and errors are invited. Thanks are expressed to librarians, clerk-treasurers, auditors, school superintendents and others who have supplied data for the STATISTICS OF OHIO LIBRARIES.

*There is an area of inter-relationship between these two taxes. In the case of bank deposits, one class of intangible property, if the individual declares the tax and pays it, the money goes into the county intangible fund and libraries along with other sub-divisions may share in it. However, if the bank declares the tax and pays it, which is the usual procedure, the money is collected by the state, goes into the local government fund, and is not available to libraries.

INTRODUCTION

The STATISTICS OF OHIO LIBRARIES is compiled from information supplied by academic, institution, public and special libraries in Ohio through questionnaires sent by The State Library of Ohio during 1985.

The publication includes data from all types of libraries as well as Rankings of public and academic libraries.

The public library statistics are reported for calendar year 1985. County auditor's offices reported data on the distribution of intangibles tax funds to the Auditor of State. These data were forwarded to the State Library where it was compared with the information received from the public libraries.

Academic, Special and Institution library data are based on information from the annual reports with statistics for the most recently completed fiscal year.

Statistics on school library media centers (for school year 1984-1985) were collected by the Ohio State Department of Education's Ohio Educational Data Systems School Building Survey (OCCD-7L). These statistics were compiled by the Department of Education's Division of Computer Services and Statistical Reports and forwarded to the State Library.

Arrangement of information is generally self-explanatory; footnotes have been used as needed. A dot leader (...) or an N/R in a data column indicates a non-response.

Note of omissions and errors are invited. Thanks are expressed to librarians, clerk-treasurers, auditors, school superintendents and others who have supplied data for the STATISTICS OF OHIO LIBRARIES.

*There is an area on inter-relationship between these two taxes. In the case of bank deposits, one class of intangible property, if the individual declares the tax and and pays it, the money goes into the county intangible fund and libraries along with other sub-divisions may share in it. However, if the bank declares the tax and pays it, which is the usual procedure, the money is collected by the state, goes into the local local government fund, and is not available to libraries.
